News of the Marning.

The Persia is in, after a very rapid passage, bringing a weak's later dates from Europe. Her news is interesting. Breadstuffs are again lower; money easy; the Peace Congress finally adjourned a better feeling in England about the difficulties with the U.S. A dark cloud, however, is rising in Italy, whether to burst into war, or blow over without mischief, is yet uncertain, The Empire City brings news of a bloody riot,

between natives and foreigners at Panama, and the rumors of another battle in Nicaragua, which resulted favorably to the Filibusters. We have full and reliable details, in the letter of our attentive Kansas correspondent, of the recent outbreak at Lawrence. The telegraph

adds that Sheriff Jones, who was shot while guarding his prisoners, is believed to be mortally wounded.

The Orizaba, from San Juan, brings some very interesting news from that quarter.

Mr. Buchanan's Claims upon the

The issue of Slavery extension or restriction Presidential campaign, it becomes the duty of the people of the whole country to scan carefully the position and character of the men who are prominently named in connection with the Presidency. Mr. Buchanan is one of these, and, unless noted personage, he seems quite likely to receive the democratic nomination. It may, we wise very much respected by the entire commuthink, be safely assumed that any man who, in think, be safely assumed that any man who, in the present position of the Slavery question, stands upon the record in such a manner as to commend him to the support of those who are ready to meet, and, at least, to do their best to subdue magnitude of a rude, savage character in at every hazard determined to extend that "peculiar institution," is not the man who ought to receive the suffrages of men whose regard for the beauties and blessings of Slavery does not rise to admiration, but who, on the contrary, believe it to be the great enuse of our country lieve it to be the great curse of our countrythe one vexations core upon the body politic.

Such being the case, we invite the admirers of Mr. Enchanan to read the following, which is but a brief extract from a five column leader in the Washington Sentinel, the organ of the anti-Pierce wing of the democracy at the Capital, urging the nomination of Mr. Buchanan:

formed for the good of the Democratic Party and the protection of Southern rights.

Doubtless the services above enumerated do abundantly commend Mr. Buchanan to the Slaviandantly commend Mr. Buchan cry extension party; but we have yet to see the democratic paper in this or any other Northern State which will venture to adduce arguments like those quoted, as reasons why friends of Free dom should ask his nomination, or vote for him, if nominated.

The News Dadging.

When we charged our much professing neighbor of the News with gross hypocrisy in its pretended devotion to the rights and interests of adopted citizens, and pointed, in proof, to the fact that it had silently acquiesced in, if not openly approved the vote of the Democratic Representatives in Congress for a Know Nothing Speaker, it made answer as follows:

If the Sentinel can produce anything ever said by Gove. Smith or Aiken which goes to prove them, or either of them Know Nothings, we will be among the first to condemn the act of supporting them.

So much for its promise. But what was the performance? Why the Sentinel produced to the question by Dr. A. K. Marshall, K. N. the assailant, both parties were left to do as they Representative from Kentucky, avowed himself in chose, without let or hindrance. Not a finger was taised against Jones, not any obstacle placed to the question by Dr. A. K. MARSKALI, K. Jones, altogether misapprehending the matter, considered it a case of rescue and resistance to the law, whereas, the people, having no knowledge of, or repudiating Jones' official character, chose to consider it a street fight, in which Jones was the assailant, and they rushed in to separate the combatants, and prevent the disgreec that would thereby attach to the town. But it would seem from the statement of the Wisconsin that Gov. Aiken said, "I would not object to, but would favor a material extension of the naturalization laws." If extended, the laws would embrace more, instead of ices.

Gov. Aiken does not say that he favors an extension of the time which foreign born citizens must reside in this country before becoming entitled to naturalization.

Jones soon after left for Lecompton, for a posses to make the arrest. On Sunday morning he termed, with half a dozen assistants, and not seeing Wood, who was in his own house, he attempted to arrest two or three of those who assisted in what he chose to consider the rescue of the day previous, but to be brief and arold repetition, he succeeded very much as on that occasion. Whether he also had a communication to the "border ruffians" or not, I do not know. The military were drilling in Westport on Saturday, they said, with the intention of coming up here again. EDITORS:—The skiesstill weep at short intervals, and squeeze out the wet as easily and frequently as, "Job Trotter" of herymose memory was wont to do, to the disgust of a whole community of unprepared "Sam Wellers," and April's uncertain month is having a most glorious reign. The a pity the ground it blesses here bad not a clean face to offer up and thank the gentle giver; as it is, also, it is too dirty even to be cleaned by what should be called a cleansing process; excess of filth is impervious to washing, cess; excess of filth is impervious to washing, nothing but digging will improve it. The warm genial rain from day to day elsewhere shows the work that is going on beneath its influence .-Where grass grows, there is quite a crop already visible, and the earlier trees sway their branches

to and fro as if to show to the most advantage the dress of tender green they wear; the weeping willows in particular have a most reviving and refreshing look; the shrubbery adorning every garden spot, seems fully accounted in its apring costume. The coming of the great moving day asts a most substantial shadow before, and if twere not for the "hurly burly" on the 1st, one would naturally suppose he was in the midst of the annual excitement. The era of auction furniture sales is nearly over, and the amount of personal property that is knocked down here in a few weeks is past all calculation. For the female

us, the reinstatement of Daniel Linn, as a policeman, is a most shiking one. This man was
suspended for assisting Mr. Baker, the murderer
of Poole, to escape. It is said that John Lyng,
keeper of a noted hell here, has also received an
appointment. Is it a wonder that our police

Mr. James Irving, by the perseverance of his friend, Mr. Selan, has overcome the fleeting virtue of his objection, and got his appointment at last, so we are cared for and guarded by one protector.

The Baker rial is still delayed, though a full

The people who sent Oliver to Washington as their representative, are very much diseatisfied with his course, and they accuse him of proving false to them, by voting for Richardson, Orr and Aiken, instead of the 12th section Know Nothing candidate, for Speaker of the House. It is reported that they are very much displeased with him for accepting an appointment on the Kansas Investigating Committee. Mr. Oliver considered it necessary to remain at home for a short time, to set himself right with his constituents.

Mr. Buchanan's reception was quite entinsiastic, though the great arrangements which were to be made, were not carried out, time not being given to perfect them, and Mr. B. was averse to any great demonstration taking place in his be-half, though the shaking hands business comes off to-day at the City Hall. The Annual Festival of the St. George's Society came off at the "Metropolitan" (where all good things come off) on Wednesday evening, and "Johnny" had a good time and every thing his own way. Lagrange and Gottschalk give concerts there next week, the latter's composition, the "Marche de Nuit," has been greatly in vogue here, and has passed through three editions aiready. Longfellow's Hiswatha has been translated into Gerfellow's Hiswatha has been translated into Go man by the Poet "Freiligrath," so there's uo end to the popularity of that legend, which still continues to be read in public by many a fair Chippews for the nonce, with good and had of

MOUDE, 5-22.—Dear set:—as I consystent concentration on consignment, "no cure, no pag," I take pleasure in stating its affects as reported to me by three brothers who live in this place, and their testimony is a fair specimen of all I have received:

W. S. COMMIN told me—"I had taken nine bottles of

Christie's Ague Baisam, and continually run down while using it until my lungs and liver were congested to that degree that blood discharged from my mouth and bowsis, so that all thought it impossible for me to live through sancter chill. The doctors, too, did all they could for not but thought I must dies. Nothing did me any good until I got Rhodes' Fever and Ague Cure, which at once reliev is me of the distress and nauses at my stomach and pair n my head and howels, and produced a permanent cur

H. M. Conglix says:—"I had been taking medicine ragond a doctor as we have in our county, and taken any quantity of quinine and specifics without any good result from 25th August to 17th December. But meing how alco-ly it operated on my brother, I got a bottle of REODES FEYER AND AGUE OURE, which effected a purmaner cure by using two-thirds of a bottle."

S. M. COMMEN was not here, but both the other brother say his case was the same as H. M.'s. I sold the medicin

to both the same day, and the cure was an speedy from he same small quantity, and I might so specify. Yours with respect, A. HUNTINGTON.
The above speaks for liself. Good proof as it is, it is a to better tenor than the yest number of like certificates nave already published, and the still greater amount the continuatly pouring in to me.
One thing more. Last year I had occasion to caution

the public in these words:

"I notice one firm who have taken one of my general circulars, substituted the name of their nostrum nedicine, and then with brasen impudence end their amphist with the exciamation, Let the proprietors of my other medicine any as much if hedare? &c. Now I take pleasure in saying that the Caution referred to the same "Dr. Christie's Ague Balsam " that is mentioned in the above certificate.

There are several other industrious people who are ap-

plying to their poisonous trash all that I publish about my Fevre and Ague Cure, or Antidote to Malaria, except the Certificates of Cures, and the certificate of the celebrated Chemist, Dr. James R. Thorne Pas ie, ied entirely upon the members of his own Company t ntertain our theatre-going public and draw good house at Young's Hall. Thus far, too, he has been entirely sur cessful, as well in the generally excellent manner in which the different pieces have been produced, as in the num-ber and character of the audiences which have been at tracted to the Hall. The leading members of the Com-pany have become established fovorthes. Miss Events Trouss, with her graceful manner, spirited acting, bright smit, and invariably correct appreciation of the charac-ter she sustains; Mestater, with his casy, clever and natural delineations, Mr. Leptinowati, with his re-markably versatility; and Mr. and Mrs. Thouse, who are excellent in withstear they undertake; have continued to make the theatrical entertainments at Young's Hale at once popular and fashionable.

THE CITY .- Not withstanding the assertions in some of the city papers to the contrary, the fact is a glaring one, that the city is in a more fifthy condition this spring than it has ever been before. The fifth is perhaps not quite so appar-ent, owing to the long spell of dry weather, but it needs Unless the Board of Health are organized immediately, warm weather will have set in before the streets, alleger yards, etc., are cleaned, and the process of cleaning will carried on when the thermometer is standing at 90 in

A missince may now remain never so long before it can be removed.— Ponds and pools of malarious water; gutters filled with garbage; filthy docks, and yards in the rear of public of fices, which are as ignorant of the effects of a showel or broom as the face of an Equimaux is of yellow soap, abound in the city, and should be removed and cleaned before warm weather commences. The Commen Council should act upon this matter immediately, and by removing any and everything shattends to a did or wheth cases, there ary and everything that lends to aid or about depast the will have done much to add still another to the fong list o years that has seen Milwaukes free from the ravages o pidemic disease. It leads off with a very interesting article on the Kane Expedition, and among the gens of this mooth a collection are the papers entitled "The Apple Tree Table, "Nathan Hale," "Soumpavias," "Scenes in the Western District," &c. THE SALARY OF THE CITT MARSHAL .- The Common Council, neiwithstanding they cut down the fixed salary of the City Marshal from \$300 per year, as before, to \$200 as it now is, have still left to that office the same

amount of pay per year as the last Marshaireceived. H has now the privilege, if he asks it, of being appointed a Policeman, at assisty of \$600 per year, which, with the \$200, makes \$500; added to the fees for collecting licen \$200, makes 3000; anded to no feer our consering measures, seem summing juries, &c., this amounts to \$1,600; which we certainly it lak is sufficient to provide him with an office if he wants one; but, being a policeman, let those with want him apply to the Station Rouse, and If of "those having business there," they will undoubtedly be admitted THE STRAIGHT CUT CHIES ADRIVE.-We were
